When considering the selection of rugged industrial PC's we hope you'll want to explore all the alternatives before you make your purchase. Were you aware that Daisy Data Displays, Inc. offers an All-Weather PC for companies similar to yours?

### *4820AB Series*

Our NEMA 4X rugged cast aluminum enclosure with special UV tolerant paint finish is designed with your harshest environments in mind. It is classified for Class I, Zone 2 NI, EExnA IIC T4, EXII36, compliant with ATEX94/9/EC, to ensure safety in your hazardous areas. To survive your rig floor, ship, or truck mounted applications it has been engineered to withstand high shock and vibration. The low power Intel Pentium M 1.8 GHZ Processor is fully configured with flash IDE Drive, an extensive list of I/O ports. This computer is designed to meet your demanding applications while operating at extreme ambient temperatures. For your ultimate viewing ability in any light conditions this unit has a 15" transfective display with antiglare shatterproof window. The 14 key keypad also allows you the flexibility of customizing the unit to fit your software application.
